an accessible comprehensive source of information on the korean language its structure and history to its cultural and sociological setting

power up korean vocabulary is full of essential information that beginning to intermediate level students must know this book kindly points out important lexical grammatical and cultural information of the words along with helpful warnings against common mistakes by korean learners students are expected to expand their vocabulary easily and in an interesting way while practicing 25 lessons

a handy korean phrasebook and guide to the korean language survival korean contains basic vocabulary necessary for getting around korea this book contains all the necessary words and phrases for speaking korean in any kind of setting perfect for students tourists or business people learning korean or travelling to korea it also contains a beginner guide to the korean language allowing for a deeper understanding of korean than a typical korean phrasebook or korean dictionary the book is broken into four basic sections common korean expressions and

key words essential korean communication tools korean travel vocabulary and useful korean expressions and korean pronunciation guides for key korean names and signs all korean words and phrases are written in romanized form as well phonetically making pronouncing korean a breeze for example the word for hello yoboseyo is also written as yoe boh say yoh authentic korean script hangul is also included so that in the case of difficulties the book can be shown to the person the user is trying to communicate with key features of survival korean include hundreds of useful korean words and expressions up to date internet mobile and social media terms an english korean index with more than 1 000 additional words and their pronunciation for quick reference romanized forms phonetic spellings and korean script hangul for all words and phrases a concise background and history of the korean language an introduction to the korean alphabet a pronunciation guide for korean syllables a guide to korean grammar

this book represents an effort of around five years of part time research study and writing by the author in addition to assembling and organizing large amounts of accurate and current information from nearly countless sources mr mcdonough has also striven to describe the korean language in clear engaging prose although written with beginning and intermediate learners in mind even advanced users should find this handy book quite useful some of this data is very hard to find in any reference source in english anyways and this book is much more accessible than others written by native korean authors professional linguists academics and the like naturally explaining a foreign language requires some grammar terminology however this has been minimized and all terms are clearly explained in simple language and also defined in a convenient glossary at the beginning of the book the handbook is meant to be a solid introduction to the grammar and structure of the language as well as a reference guide to be consulted as needed everything you should need is very clearly laid out with over 50 tables and lists as well as an index plenty of examples are provided as well this is the only book of its kind written in english currently available and the only book that contains such a well organized and useful collection of information part of its unique value is in the author s careful editing and the exclusion of a lot of older rarer legacy grammar material that tends to haunt many korean books further aiding the user notes about frequency and general usefulness are included in many places in addition to being a self contained educational resource the handbook would nicely complement classroom study as well as the various textbooks on the market lastly this might be a useful tool for korean natives studying english the author comes from a computer science background and initially set out to create a user s guide similar to those in that field really just for his own use that project evolved into much more and this book is the result a companion vocabulary focussed volume is due out later in 2015 and an advanced book in 2016 other learning tools are planned as well including an interactive internet based application for computers and smartphones

more making out in korea is a fun accessible and thorough korean phrase book and guide to the korean language as it s really spoken now in its third edition this is the perfect introduction to korean as it s really spoken from everyday interactions to basic questions to the language of love it includes phrases and tidbits of information on a variety of social
